ABOUT ME

Results-driven Data Analyst with 1+ year of experience in data analytics, business intelligence, KPI reporting, and dashboard development. Skilled in SQL, Python, Power BI, Excel, Tableau and exploratory data analysis (EDA) with expertise in transforming large datasets into actionable business insights. Experienced in data cleaning, data validation, trend analysis, reporting automation, and stakeholder-focused analytics. Strong understanding of statistical analysis, business metrics, and data visualization techniques to support data-driven decision-making.

SKILLS/TOOLS

- SQL (Joins, Window Functions, CTEs, Subqueries)
- Python (Pandas, NumPy, Matplotlib, Seaborn)
- Power BI (DAX, Data Modeling, Dashboard Development)
- Excel (Pivot Tables, Power Query, VLOOKUP)
- Tableau (Dashboard Development)
- Jupyter Notebook
- Data Cleaning & Data Validation
- Data Visualization & Reporting
- Exploratory Data Analysis (EDA)
- Business Analysis
- Statistical Analysis
- Trend Analysis
- KPI Reporting
- Git / GitHub

EXPERIENCE

- **ScaleUpGlobally | Growth Analyst**
[Full-time | Apr 2025 to Present]
 - Analyzed performance metrics, engagement trends, and conversion data across 50+ marketing ad campaigns to identify optimization opportunities.
 - Performed KPI reporting, exploratory data analysis, and A/B testing to support business optimization and decision-making.
 - Created analytical reports and performance summaries for 10+ Instagram and YouTube clients to track audience growth and campaign performance.
 - Worked with structured datasets while ensuring data accuracy, reporting consistency, and performance tracking.

ADDITIONAL ANALYTICAL EXPERIENCE

- **Freelance Social Media Analytics Projects**
Project-Based | Aug 2023 – Mar 2025
 - Analyzed audience growth, engagement, impressions, and campaign performance metrics across social media platforms.
 - Created performance reports and identified trend-based optimization opportunities through data-driven insights.

PROJECTS

DarkStoreIQ – Operations & Sales Analytics Dashboard | Power BI, Python, SQL, Data Modeling

[GitHub Link - github.com/sakshipr3110/DarkStoreIQ]

- Built a 3-page Power BI interactive dashboard analyzing 220K+ orders and 780K+ inventory records.
- Designed a star schema data model with 4 fact tables and 4 dimension tables for optimized reporting performance.
- Performed exploratory data analysis and data validation on 1M+ records using Python and Pandas.
- Developed SQL queries and Power BI KPI measures for revenue, inventory tracking, procurement, and operational analysis.
- Identified 18K+ low-stock cases and demand patterns to support operational insights and business decision-making.

Insurance Performance & Stakeholder Analytics Dashboard | Tableau, Excel, KPI

[GitHub Link - github.com/sakshipr3110/Insurance-Performance-Analysis]

- Developed an interactive Tableau dashboard analysing 10K+ insurance records and 18 business variables.
- Built KPI dashboards for premium trends, insurer performance, profitability analysis, and stakeholder insights.
- Created dynamic filters, tooltips, and cross-visual interactions for interactive dashboard analysis.
- Performed data cleaning and transformation in Excel for dashboard reporting and visualization.

CERTIFICATE

- Google Data Analytics Professional Certificate - Coursera

EDUCATION

- B.Tech in Computer Science Engineering (CGPA: 7.0/10) - IIMT College of Engineering, AKTU (2019 - 2023)
